

WHY

DASVERSE

2023.03

A door connecting art, life, and people

DASVERSE does not simply revolve in art, it communicates through interactions.

Through interactive art and digital media technology, DASVERSE maintains the balance between reality and fiction while expanding the border of art.

DASVERSE leads the future of artistic cultural experiences and creates the value of cultural heritage.

Welcome to the space of art and future.

It is not a phenomenon, it is 'everyday life'. This is the way of DASVERSE.

A new cultural heritage, 'DASVERSE'.

These are **the worlds DASVERSE is creating**

DASVERSE

Art Metaverse

“DAS will be the game changer for the NFT world”
DAS의 비즈니스 모델은 NFT 세계의 게임 체인저가 될 것입니다.

GULF NEWS

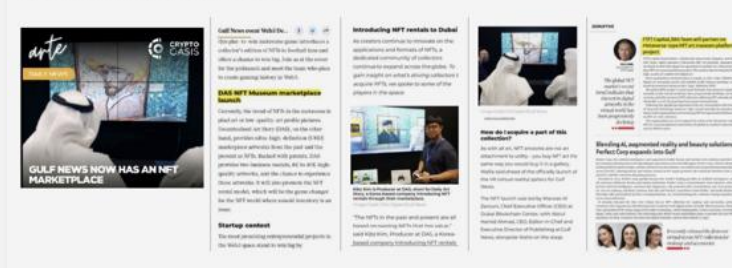

“A new world is being created with NFTs, metaverse, and art. However, art has an inherent beauty within. We wish for this inherent beauty to touch the hearts of viewers more than the original through NFT, metaverse, and art in this new world.”

- RJ Park, CEO and COO, DAS

DAS NFT Museum marketplace launch

Currently, the trend of NFTs in the metaverse is pixel art or low-quality-art profile pictures. Decentralised Art Story (DAS), on the other hand, provides ultra-high-definition (UHD) masterpiece artworks from the past and the present as NFTs. Backed with patents, **DAS provides two business models, 8K to 40K high-quality artworks, and the chance to experience these artworks. It will also promote the NFT rental model, which will be the game changer for the NFT world where unsold inventory is an issue.**
